The most advanced contaminated land risk screening report.

**Designed for:**
- High value transfers
- Suitable for any type of commercial property
- Redevelopment deals, heavy industrial/high value property

**Use this report to understand:**
- If historic activities could result in liability for the property owner under relevant contaminated land regime
- If remediation is likely to be required
- If environmental permits are held for the property or by neighbouring properties
- If current operations in the surrounding area could cause contamination of the property
- If ecological receptors could be affected by site operations
- The potential for liability under the Environmental Damage Regulations

**What’s included**
- Front page risk summary and clear ‘next steps’
- Consultant’s manual review
- Contaminated land risk analysis
- Includes writers name and contact details
- Screening of natural and mining hazards

**Risk assessment**
- Intelligent risk assessment and commentary by an experienced IEMA-accredited Consultant who understands the nuances of data and their interdependencies. This skill makes the difference between a Passed and Further Action result
- Direct access to the consultant for any follow up queries, contact details provided
- Expert manual review of high detailed historical maps
- Current operations section covers regulatory compliance
- Environmental Damage Regulations risk assessment developed by leading expert
- Additional Considerations section details other pertinent factors that may affect the site
- Considers current and proposed land use
- Includes a robust ECORISK Assessment which considers all the ecological receptors listed in the Statutory Guidance

**Why you need it:**
An advanced search that goes beyond the basic requirements of the Law Society Warning Card to pinpoint risk and liability for complete assurance.
